President's message

September marks the beginning of fall, the start of school, when energy gets a boost after the dog days of summer. PRSA is picking up the pace with programs and special events through the end of the year.

Starting with Connecting for a Cause and a South Sound program on the U.S. Open, September tees off with a lot of learning and great value. In October, we start by asking the deep questions and looking for answers with social media guru Rian Merrill of Edelman Oct. 1. Gear up for reconnecting with your colleagues and media execs for PRSA's Annual Meeting on October 16. What does the future look like for media and PR practitioners?

November 14 brings Michael Smart, renowned trainer on media pitching, to Puget Sound for a ½ day seminar. If you haven't heard him, you're in for a fast-paced, information-packed morning. And the Annual Holiday Gala and auction moves to a new venue this year - still under wraps, so watch the website for more to come. Individual awards are also presented at the Gala, including the Jay Rockey Lifetime Achievement Award. Nominations are open until Oct. 11.

And don't forget: Deadline for Totem Awards applications is Oct. 11 - there is an incentive for electronic entries this year.

So much to experience - start making plans! See you there.

Bev Holland, APR
President, PRSA Puget Sound

Ethics In A Virtual World - an Oxymoron?

Online Marketing & PR Guru Rian Merrill from Edelman Digital Talks Borderline PR Practices Oct. 1

What's ethical or unethical? Disaster strikes, and a company posts a product image prominently beside condolence language. Another company pays a well-known celebrity to tweet positively about its service. Yet another makes a deal with a prominent news organization to place their branded content on the front page of their website. PRSA challenges you to ask the question, are these situations on the right side of online ethical behavior?

Communications practitioners are confronted daily with rapid-fire communication challenges in order to stay one step ahead of the competition. Today, we have the ability to reach more people quicker than ever before. Does ethics lag behind innovation? What do we do? Who should monitor online content - if anyone?

Join us for a provocative and interactive evening with Rian Merrill, Sr. Strategist with Edelman Digital to talk about these issues in a 24/7/365 digital world.

Date: Tuesday, Oct. 1
Time: 6:30 - 8:00 pm

What will the media landscape look like 5 to 10 years from now? October 16: PRSA Puget Sound Annual Luncheon

Traditional news media have served as the connecting rods in U.S. communities for many years - print media for more than 200 years in North America alone.

How are print and electronic media connecting people with the issues and important events in their communities today, and how will that change by 2020 and beyond? Our panel of media executives and editors talk about what keeps them up nights - how they are helping to shape the landscape as well as respond to the evolutionary changes in the way news is sent and received. How are they assuring that their medium exists and thrives in the future? What are the implications for public relations? Join executives from the region's major media outlets in this provocative discussion.

140 Turn Out for Social Media Bootcamp

Ann Wylie's Social Media Bootcamp attracted a record 140 eager social converts to the Museum of Glass in Tacoma on Aug. 15. Wylie, who is a summer staple in the South Sound, didn't disappoint. She told attendees in no uncertain terms that "me-forming" is out. With social media, it's all about "in-forming" your audience. The organizations (including government) that had the most interaction did it by using news or how-to's.

Here are the sharing/retweet percentages of those organizations:

- News: 78%
- How-to's: 58%
- Entertainment: 53%
- Opinion: 50%
- Products: 45%
- Small talk: 12%

Didn't have a chance to attend? Wylie will be back again next summer.
